Gundooee Jensen N41(P)

He has thrown a high percentage of polls, particularly pleasing is his daughters correct udder and teats. Also, of note last year's sons came in with terrific marbling scores.

David, Gwen, Greg & Pat – 2014 Open Day

Many of you in the Devon world would be aware of the recent success the Smith Family from "Donellen" North Star NSW and "New Kooroon" Via Westmar Qld had regarding MSA awards. They won

"Qld's Most Outstanding Non Grainfed Smaller Producer in the 2023 excellence in eating awards"

David, Gwen & Cameron bought two bulls from our first bull sale at the Barnstaple on property sale in 2002. Since then they have averaged 1 bull a year and are great supporters of Benoak and great promoters of the Devon breed. At Benoak we have never tried to regurgitate a tsunami of figures onto good quality paper to feel we are providing cattle fit for the industry. Thankfully the Smith's didn't require it either and a good working relationship was formed. Good common sense and cattle husbandry that let's the cream rise to the top. Devon cattle have a knack for winning these type of awards. Their genetic DNA obviously has a predisposition for quality and taste. To win this award, especially in the heart of Australia's cattle country is a credit to the Smith's and their management and a massive endorsement for quality Devon Cattle.
